

# Bulk Water System Upgrade and Price Increase.

The Cartier Regional Water Cooperative Board will increase its truckfill bulk water rates effective April 1, 2020 to **\$3.65** per cubic meter.

The Cartier Water Treatment Facility and the St. François Xavier Reservoir truckfill locations will be modified between March 23 and April 3, 2020. Once a date has been chosen for the conversion, a new notice will be posted at the locations.

The Cartier Regional Water Co-op will **no longer supply a fill hose** for water haulers. Customers will now require their own hose with **3" Camlock Part C** Type fitting to fill.
